

ADVANCED DIPLOMA OF WESTERN HERBAL MEDICINE – HLT60112

Schedule of fees and census dates for 2017 v09122016

Schedule effective 1/1/17– 31/12/17 and published 09/12/2016

Total course tuition fees (8 terms) domestic/VET FEE-HELP eligible students = \$22164.80

All unit of study tuition fees are applicable for units of study delivered by the AIHM's Cockburn Central campus, Western Australia

AIHM unit of study	Brief Unit description	Unit fee Domestic Students/VET FEE-HELP eligible students	RPL Unit Fee	EFTSL (Equivalent Full Time Study Load)	2017 Start dates	2017 End dates	2017 Census dates
TERM 1							
BION 101A Introduction to Biomedical Sciences Part A	This is a core unit for all courses offered. It includes a broad overview of the anatomy and physiology of the Skin, and musculoskeletal systems. Foundations of pathological principles will be discussed. Cellular and Tissue structure and function will be also discussed in detail. Micro-organisms and its importance in understanding mechanisms of diseases will be elaborated. Basic chemistry and structure and function of macromolecules will also be discussed. Students are expected to complete Multiple choice questions short answer questions and assignments related to the various concepts covered in this unit	766.2375	383.12	0.086777	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
PHIN102 History and Philosophy of Natural Therapy	This unit introduces the philosophies of healing and their relevance to clinical practice. In addition the latest theories and direction in science and the interactions between the two paradigms will be studied. Students will explore and apply the fundamentals of natural therapies during the course of the study of this unit.	529.20	264.60	0.049587	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017

					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
HERN 119 Introduction to Herbal Medicine	This unit provides participants with an introduction to the history and philosophies of herbal medicine, and	529.20	264.60	0.049587	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017

	herbal botany. Areas covered in this unit include; the history and philosophies of Chinese, Ayurvedic, Roman, Greek, Native American and Aboriginal Herbal Medicine. Plant Identification, Taxonomy and Nomenclature, learning how to communicate knowledge of Herbal medicine principles and practice, an introduction to dispensing medicine and methods of application and also outlining the legal issues pertaining to Australian Herbalists are also covered.				Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
BHSN 106 Communication Skills	This unit is an introduction to understanding human behaviour and the relationship between basic behavioural influences and ill health, both physiologically and psychologically. Nature, Nurture and Need Factor influences are studied through a combination of theory and practical applications. Basic counselling knowledge and skills required for a therapist will be covered.	529.20	264.60	0.049587	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
TERM 2							
BION101B Biomedical Sciences Part B	BION101A is a pre requisite for this unit. It includes a broad overview of the anatomy and physiology of and the remaining body systems not covered in BION101A. Foundations of pharmacological principles, function of enzymes, Metabolism and importance of vitamins and antioxidants will be covered. In addition an introduction to basic research methods will be provided. Physical examination techniques will also be covered. Students are expected to complete Multiple choice questions, short answer questions and assignments related to the various concepts covered in this unit plus a comprehensive assessment of the content covered in BION101A and BION101B will be conducted.	766.2375	383.12	0.082645	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017

					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
TERM 3							
BION201 Biomedical Sciences	BION101A and BION101B are prerequisites for this core unit. Students will learn about the anatomy, physiology, pathology, microbiology, pharmacology related to the Integumentary, Skeletal and Muscular systems. In addition research methods, patient history taking, physical examination, and differential diagnosis relevant to these systems will be covered. Students are expected to complete multiple choice questions, short answers, assignments and 6 case studies for this unit.	766.2375	383.12	0.074380	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017

NATN207 Naturopathic Nutrition	NATN107 is the prerequisite for this unit. This unit will explore phyto-nutrients, zoo-nutrients, antioxidants, heavy metal toxicity, food and drug interaction, environmental food contaminants, organic and genetically modified food .prostaglandins & essential fatty acid imbalance, nutritional influences on methylation & homocysteine, anti-inflammatory nutrients & phytochemicals, nutritional influence on neurotransmitter production pathways and smart nutrients. In addition food labelling & advertising, convenience & take-away foods, caffeine, and water will be covered. Nutritional intervention in relation to the disorders of the integumentary and musculo-skeletal systems will also be discussed.	661.50	330.75	0.061983	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
HERN219 Herbal Medicine	This unit is designed to provide the participant with knowledge of the pharmacological and phytochemical basis of medicinal plants and their actions, interactions, indications and contra-indications. Areas covered include principles of phyto-therapy, active constituents and chemistry of herbs, dispensing procedures and TGA requirements. Co-herbs as recommended by the National Herbalists Association of Australia in relation to the formulation of herbal preparations and management of integumentary and musculoskeletal disorders will also be discussed.	529.20	264.60	0.049587	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
CLINWHM229	Training in our on site student clinic dealing with members of the public, case studies and clinical applications. Outline for each unit can be found in the clinic log book. Skill assessment of most of the units will occur in the clinic.	945	472.50	0.061983	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017
					Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
TERM 4							
BION301 Biomedical Sciences	BION101A and BION101B are prerequisites for this core unit. Students will learn about the anatomy, physiology, pathology, microbiology, pharmacology related to the Cardiovascular and Digestive systems. In addition, patient history taking, physical	766.2375	383.12	0.078512	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
					Weekday 24/04/2017	Weekday 01/07/2017	08/05/2017

	examination, and differential diagnosis relevant to these systems will be covered. Students are expected to complete multiple choice questions, short answers, assignments and 6 case studies for this unit.				Weekday 17/07/2017	Weekday 23/09/2017	31/07/2017
					Weekday 09/10/2017	Weekday 16/12/2017	23/10/2017
NATN307 Naturopathic Nutrition	NATN107 is the prerequisite for this unit. This unit will explore the diverse diets from the foundations established by those that form part of cultural and religious influences in the community and numerous contemporary diets. In addition interactions of food, nutrients and drug, naturopathic concept of body pH and its effect on health, food combination, healing crisis, food as medicine and germ theory will also be covered. Nutritional intervention for the disorders of Cardiovascular and digestive systems will be discussed in detail	529.20	264.60	0.049587	Weekday 23/01/2017	Weekday 07/04/2017	06/02/2017
